When you register, you will see two options: the actual cost to Temple Israel to educate your child, and the lower subsidized amount charged as tuition.

We recognize that the challenges of COVID have continued to create financial instabilities in many of our homes. **With this in mind, we have not increased the Chavaya tuition for the third year in a row.** Chavaya continues to operate at a deficit. If you are financially able, we invite you to “close the gap,” by paying that actual cost. We wish to continue providing the rich Jewish experiences our children enjoy and need your financial support to do so. Should you choose to support us in this manner, any payment above the standard tuition cost is fully tax-deductible.

Afternoon B'nei Mitzvah Fee \$2500

*3% Administrative Fee will be added if paying by Credit Card
